4. Build an Altar feat. Las Cafeteras

Today we build an altar for my love
Build an altar
Today we build an altar

Today we build an altar for my love
Build an altar
Today we build an altar (yea)

Put some flowers in a vase and
Pour them a libation
Light a little sage and
Say an affirmation

Cause today we build an altar for my love
Build an altar
Today we build an altar

Bring water and a flame
A picture and a frame
You on another plane
We won't forget your name (We won't forget you, you deserve an altar)

Cause today we build an altar for my love
Build an altar
Today we build an altar

Te damos regalos
Ofrendas y recuerdos
Nunca te olvidaremos
En el Día de los Muertos (el Día de los Muertos)

Por que hoy hacemos
Un altar para mi amor (para mi amor)
Today we build an altar

Con honor y gratitud
Levantamos un altar
Para recordar su luz
y su espíritu inmortal

Cempasuchil in my hand
Orange pedals everywhere
It's the flower of the dead
So our spirits know we care (so our spirits know we care)

Cause today we build an altar for my love

Build an altar
Today we build an altar

Let's build an altar (build an altar)
Let's build an altar (build an altar)
Let's build an altar (build an altar)
Let's build an altar (build an altar)

So we normally have water
Plants and we have a picture
And we drink water after we do our pray

9. Help You Do The Work feat. Jarrett Johnson

Why don't you let me help you

You wear so many hats we lost count
Why don't you take a break
Put on this crown
We can help you do the work
You don't have to do it by yourself (no you don't)
That could make you go berserk
Just take a deep breath and relax
We can help you with the work (help with the work)
This is how you care for yourself (self care)
It's good for your health
We can help you do the work (woo help you)
We can help you do the work

Remember
There's no shame in letting someone
Help hear your tender heart
Your strength is never in question
Hear me out I have suggestions
Breathe when you're feeling overwhelmed
Let me help
If you need a little help

The lesson in the song
You're not in this alone
If you have a tear to shed
Here's a shoulder

You wear so many hats we lost count
Why don't you take a break
Put on this crown
We can help you do the work
You don't have to do it by yourself (no you don't)
That could make you go berserk
Just take a deep breath and relax
We can help you with the work (help with the work)
This is how you care for yourself (self care)
It's good for your health
We can help you do the work (woo help you do the work)

Everybody needs a hand now and then
Work together make it easy
In the middle of a storm again
Sometimes we get queasy (nobody knows)
When you're in trouble (so let me help)
I'll be there on the double
Never a task
All you gotta do is ask
If you have a tear to shed
Here's a shoulder

You wear so many hats we lost count
Why don't you take a break
Put on this crown
We can help you do the work
You don't have to do it by yourself (no you don't)
That could make you go berserk
Just take a deep breath and relax
We can help you with the work (help with the work)
This is how you care for yourself (self care)
It's good for your health
We can help you do the work

Alright we're gonna try some breath work together
Try it with me
Breathe in (inhale)
Breathe out (exhale)
Good job let's try it again
Breathe in (inhale)
Breathe out (exhale)

12. SonShine feat. DL Zene

Your light is my medicine yeah said
Your light is my medicine

Carry the light
So sacred
Shining in the dark
Son bathing

SonShining on you
SunShining on you
I carry torch
No problem
Standing on your shoulders
I'm golden
SonShining on you
SunShining on you

Your light is infinite (yeah)
Oh I wanna bask in it (you know)
You're so brilliant
It's funny but you're literally light skinned'ed
Your flesh and bone well
It's made of star dust
Your soul glows like the break of dawn
And your smile is my evidence
That your light is my medicine

Carry the light
So sacred
Shining in the dark
Sun bathing
SonShining on you
SunShining on you
I carry torch
No problem
Standing on your shoulders
I'm golden
SonShining on you
SunShining on you
I love the way you rock but
Go bolder/boulder
If they try to dim your light
Go Nova
SonShining on you (SonShine)
SunShining on you (SunShine)
I'm floating and I'm light
It's no ceiling
Open to the light
It's so healing

Your light is my medicine yeah said

Oooh I
I couldn't wait to see the day

You came into my life and changed me for the better (for the better)
Heading into fears of the unknown
Life will change but that's okay (that's okay)
Made a rainbow shine
When all I knew was grey
You are my light
Even in the darks I can smile
My son so bright
You make me so happy cause
Your light is my medicine
Your light is my medicine

Carry the light
So sacred
Shining in the dark (shining in the dark)
Sun bathing
SonShining on you
SunShining on you
I carry torch
No problem
Standing on your shoulders
I'm golden
SonShining on you (SonShining on you)
SunShining on you
I love the way you rock but
Go bolder/boulder
